CONCEPT SURFACES - LIGHTNING SERIES

MOSAIC

Type	Size	Chip Size	Interior			Exterior			Mount	Edge	Finish	D.C.O.F	
			Wall	Floor	Wet Areas	Wall	Floor	Pool				Wet	
Block	12"x12"	3/4"x3/4"	x	x	x	x			Mesh	Non-Rectified	Matte	>0.65	

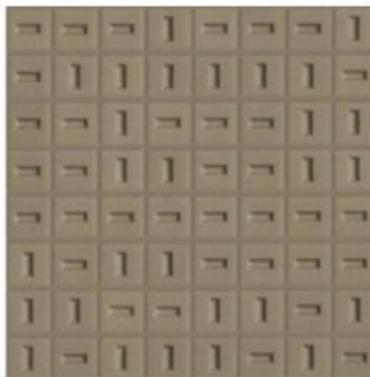

Note: The thickness of Lightning is equal throughout the chips, with a minimum tolerance of tenths of a millimeter, and is precisely adhered to the mesh sheet by machine. Any difference in thickness or appearance will not be noticeable once installed and grouted.

Grout joint spacing must be 2mm to allow continuity between sheets. Using any other grout joint spacing will lead to irregularities and make the single sheets visible.

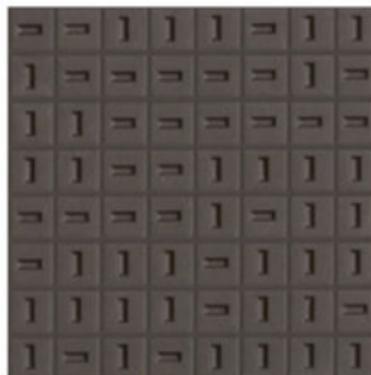

Installation Recommendations: Planarity and stability in the substrate is needed. Use a 5mm notched trowel for spreading adhesive. Cement based grout is preferable (epoxy grout is not recommended)
